Subject: Re: WDNR Sites with Limited or no Documented Contamination

Hi Mark,

I checked on the PA/VSI status of each of the sites listed as "NA" in your table. I revised the table (attached) to show if we have a copy, or some other document such as an RFA which might be helpful.

At the suggestion of the file manager, I will also check the Superfund files to see if any PA/SI exists. One of the sites, Sampson Investments, has no file at all.

I will start to dig into the files more next week.

Please let me know if you have any questions.

Regards,
Bob

Hi Hak. Here is the next installment of WDNR sites that would potentially qualify for a CA 725 and/or CA 750. If you could check to see if you have PA/VSI's for those sites listed as "NA" that would be helpful. Also, let me know when you would be available to get together to go over the list and develop a strategy for the next 2 years. Thanks.

---Mark
